Innovative Approach Quality Solutions

Our core service philosophy is based on a **commitment to Innovative Approach** and a **commitment to Quality Solutions**.

Our teams are highly focused on creating value for our clients and thus maximizing their return on investment.

Infrastructure/Cloud Business Solutions

Transform to Cloud for greater improved efficiency, reduced cost, flexible, and reliable business solution.

Our expertise includes:

- Risk mitigation strategies
- Implementation roadmap
- Cloud and utility computing
- Identify right mix of traditional IT, private cloud and public cloud based on unique needs of your enterprise

IT Staffing & Solutions

In the face of the shifting landscape of Corporations, Cignus focuses on providing a full range of service & staffing offerings for our clients. Our goal is to connect talent with opportunities that will provide mutual success and growth.

Our services include the selection, engagement and management of contingent workers, independent consultants, direct hire and functional service solutions. These services enable great efficiency and higher productivity, while enhancing competitiveness which, in turn, allows our clients to be more resilient and agile. We focus on finding the Right Person for the Right Position at the Right Time.

Products

C3 LMS

Cignus offers C3 LMS Solution Package that is customizable to the needs of the organization. The solution can be sliced and diced as per the focus and the level at which it benefits the target organization. This plug-in type model provides a generic learning framework, but also an organization specific learning framework.

CFLink SAP CoNNector

The CFLink SAP CoNNector™ provides quick and simple integration between SAP and Cold Fusion powered Web Applications. Backed by Cignus's in-house domain expertise and commitment to customer satisfaction, the CFLink SAP CoNNector™ is the fastest, easiest and most cost-effective way to achieve integration to SAP system(s).
